

Edition 2020

## Rental conditions for the historic AGMT trams

### 1. Rental application and conclusion of the contract

Any request to rent vehicles is made in writing or by email, at least two months before the scheduled date of circulation.

- • The request must include the name and contact details of the person responsible for renting and paying the related invoice (le «client»). A form is available («Demande de location d'un tramway historique»).
- • Upon receipt of the request, the AGMT establishes the circulation offer, considering, as far as possible the constraints related to the operation and the wishes of the customer.
- • The rental is registered with the AGMT upon receipt, within the required period, of the offer of circulation countersigned by the customer. In case of correspondence by email, the customer will attach the countersigned offer in PDF format. By signing the circulation offer, the customer undertakes to comply with the terms, as well as these Rental Conditions and, in particular, to pay the rental price. The offer of circulation countersigned by the customer is equivalent to recognition of debt.
- Registration with the AGMT corresponds to the conclusion of the rental agreement. The AGMT will confirm to the customer the registration of the rental.

### 2. Deadlines and execution

Any request to change the schedule and/or route after the registration of the rental can only be accepted by the AGMT if the availability of vehicles and staff of the AGMT allows it. Otherwise, the customer has the choice between maintaining the rental as planned or disposing of the contract under the conditions of termination set out in paragraph 5.

### 3. Decoration and customization of AGMT vehicles

The installation of tarpaulins and banners outside the vehicles is not allowed, for safety reasons. The authorized decorations are only interior and must be laid in a respectful way for the vehicle so as not to damage it.

It is not possible to place signs or posters against the windows.

Only a wreath of flowers may be affixed to the front of the motorcar.

The installation and removal of a decoration must be carried out at the Bachet-de-Pesay depot by the customer.

Any dismantling and elimination of decoration carried out by the AGMT will be invoiced.

#### **4. Aperitif service on board**

If an aperitif is organized by the customer or by a caterer of their choice, the customer (respectively the caterer) supplies the goods and takes care of the disposal of the waste. In this case, a supplement including the provision of tables and the reordering of vehicles is applied. It amounts to **CHF 30.-for a motorcar only and at CHF 50.- for a convoy of motorcar+trailer.**

#### **5. Cancellation by the customer**

In case of cancellation of a circulation by the customer, after registration of the rental, the AGMT will be entitled to a charge of 50% of the amount due for a cancellation between 3 and 8 days before the circulation date and 100% for cancellation within 48 hours.

#### **6. Defection of vehicles and/or unavailability of AGMT personnel**

##### **Operational disruption**

If the circulation cannot take place in accordance with the terms of the rental in particular for technical reasons inherent to the AGMT historic vehicles or because of a prolonged disruption of the TPG network, the circulation can be postponed with the customer's agreement or cancelled without compensation from either side.

These conditions also apply in case of unavailability of AGMT personnel preventing the circulation for security reasons.

#### **6. Payment conditions**

The invoice for the services provided will be drawn up and sent after the circulation. It is payable at 30 days net.

#### **7. Security**

Out of respect for the historical material, it is asked to refrain from smoking and vaping inside the vehicles as well as outdoor platforms.

It is mandatory to comply with the directives of the AGMT staff at all times.

Pets are not allowed on board our vehicles.

Musicians can only play on board trailer 363.

#### **8. Applicable law and place of jurisdiction**

The rental of AGMT trams is governed by Swiss law.

The courts of Geneva will be competent for any dispute relating to the rental.

These "Conditions of rental of historic trams, 2020 edition" replace the previous editions. They are available under <http://www.agmt.ch/-Location-de-nos-vehicules-.html>, appear on the back of the form "Demande de location d'un tramway historique" and are attached to any offer of circulation.
